

AMF TECH QUALITY AND ENVIRONMENTAL POLICY

At AMF TECH, we are committed to excellence in the quality of our products and services, as well as to environmental protection in all our operations. Our policy is based on the following fundamental principles:

1. QUALITY

Compliance with requirements: We are committed to meeting all applicable legal, regulatory, and contractual requirements related to our activities, products, and services. Additionally, we strive to exceed our customers' expectations by consistently and timely delivering high-quality products and services.

Continuous improvement: We promote a culture of continuous improvement throughout the organization by identifying areas of opportunity, implementing corrective and preventive actions, and regularly reviewing our quality management system. We encourage active participation from our employees in identifying improvement opportunities and implementing quality practices and processes.

2. ENVIRONMENT

Responsible environmental management: We are committed to minimizing the environmental impact of our operations, products, and services by adopting sustainable practices and technologies, preventing pollution, and conserving natural resources.

Legal and regulatory compliance: We comply with all applicable environmental laws, regulations, and standards in all our operational activities. Additionally, we promote environmental awareness and compliance among our employees, suppliers, and contractors.

Innovation and green technology: We aim to develop products and services that contribute to environmental conservation and climate change mitigation. We promote the use of renewable energy, clean technologies, and eco-friendly practices in all our operations.

To ensure compliance with this policy, we set specific quality and environmental objectives and targets, which are periodically reviewed to ensure their relevance and effectiveness. We also communicate this policy to all our employees, suppliers, and relevant stakeholders, providing the necessary training and resources for its effective implementation. At AMF TECH, we are committed to being a leader in quality and sustainability, working responsibly for the benefit of our customers, employees, and the environment.
